

Please, please reach out to your lists asking people to sign the Safe Routes to School petition (statement of support). We need to be at least 3,000 people strong to show decision makers that Safe Routes to School is important and should be included in the next Oregon transportation package. right Now we have about 700. **Will you help by sending 1 or 2 emails? Oregon kids are depending on you!**

Feel free to update these communications in anyway you'd like.

Here are the links that you might need:

[Email 2: to be sent out a couple days later](#)

We will be following up with a phone call tomorrow. Please feel free to call/email with any questions! Our whole campaign will rest on how many individuals we can engage. Please share this petition (statement of support) now.

All my very best,  
LeeAnne
